

10+ AI Agent Use Cases for Education

Field-tested agent patterns, from the team that ships them into production.

01 Student policy assistant

Answer student questions from official policy, with escalation.

02 Course companion

A per-course assistant grounded in the syllabus and readings.

03 Admissions triage

Verify completeness and summarize every applicant file.

04 Transcript processing

Extract and verify records from incoming transcripts.

05 Financial-aid FAQ

Resolve routine aid questions from official guidance.

06 Records requests

Process transcript and verification requests end to end.

07 Advising summaries

Prepare advisors with a one-page brief before each meeting.

08 Syllabus Q&A

Let students ask the syllabus instead of emailing the professor.

09 Alumni inquiries

Answer common alumni requests and route the rest.

10 Staff knowledge search

One search box across handbooks, policies, and procedures.
