

10+ AI Agent Use Cases for Legal Teams

Field-tested agent patterns, from the team that ships them into production.

01 Contract drafting

Assemble first drafts from your approved clause library in seconds.

02 Gold-standard redlining

Compare agreements against internal standards and draft the redlines.

03 Clause extraction

Pull key terms, dates, and obligations from any agreement into structured data.

04 Due diligence review

Sweep data rooms and flag the documents that need a lawyer's eyes.

05 Data-room summarization

Turn hundreds of documents into a sourced summary memo.

06 NDA triage

Score inbound NDAs against policy and route exceptions to counsel.

07 Obligation tracking

Extract renewal dates and duties into a live register with reminders.

08 Regulatory watch

Monitor rule changes and summarize what applies to your matters.

09 Matter intake

Structure new requests, check conflicts, and route to the right lawyer.

10 Client status updates

Draft plain-language matter updates for client review.
